

The World's Best Cellular Anti-Aging Supplement*

WOULD YOU LIKE TO LIVE A LONGER, HEALTHIER LIFE? ISN'T THAT EVERYONE'S DREAM?

Exploring longevity is truly the ultimate scientific quest, and researchers are spending billions of dollars to help us feel younger and live longer. In laboratories around the world, researchers are attempting to learn how to slow down the aging clock. According to a 2006 study by University of Chicago economists, American life spans increased by 30 years during the 20th century. This improved longevity could be worth more than \$1.2 million to each of us. Emerging laboratory research reveals that polyphenols—such as those found in red wine—may be able to influence the cellular aging process in a positive way.

A REVOLUTIONARY BREAKTHROUGH IN CELLULAR ANTI-AGING*

Developed after years of research by Shaklee Corporation, the number one natural nutrition company in the U.S., Vivix Cellular Anti-Aging Tonic is a breakthrough dietary supplement in the fight against cellular aging. In laboratory studies, Vivix ingredients have been shown to impact the four key mechanisms of cellular aging.*

Just one teaspoon a day delivers the equivalent amount of resveratrol found in 100 glasses of red wine, and Vivix ingredients are 10X more powerful in slowing a key mechanism of aging than resveratrol alone.*
