

Shakleekids™
Supersmart. Supersafe. Supernutritious.

Incredivites™

Multivitamin/Multimineral
Dietary Supplement

Most kids consume 25% of their calories from junk food, according to a recent study, and French fries are the number one vegetable source in their diets. Is *your* child eating right? Studies indicate that kids who consume diets lacking adequate nutrition perform poorly in school. Poor nutrition can negatively impact a child's immune system, bone growth, and overall physical development. But have no fear. Shakleekids Incredivites is here to put your worries to rest.

Incredivites

Supernutrition for Superkids

Shakleekids Incredivites is the first children's chewable multivitamin in the U.S. with lactoferrin, which helps kids' immune systems stay supercharged.* Packed with 23 essential nutrients, it's the world's best kids' supplement—with 600 IU of vitamin D to support strong bones and teeth, and 100% of the Daily Value of all eight B vitamins and vitamin C. Just two a day and off they play. Now that's incredible!

The Shaklee Difference

Always Safe

- * No artificial flavors, sweeteners, or preservatives added
- * Naturally sweetened with xylitol, which does not promote cavities
- * Gluten free

Always Works

- * First children's chewable multivitamin in the U.S. with immune-supporting lactoferrin*
- * Loaded with 23 essential nutrients needed for proper growth and development
- * Packed with 600 IU of vitamin D per serving, along with calcium, vitamin K, and other nutrients to help build strong bones and teeth
- * 100% of the Daily Value of vitamin C, as well as all eight B vitamins

Incredivites™

Multivitamin/Multimineral Dietary Supplement

- ★ Contains lactoferrin, a nutrient also found naturally in breast milk and researched for its role in activating components of the immune system*
- ★ Packed with 600 IU of vitamin D per serving for strong bones and teeth
- ★ Provides 100% of the Daily Value of vitamin C, as well as all eight B vitamins, which are essential for a child's development and the function of major bodily processes
- ★ No artificial flavors, sweeteners, or preservatives added
- ★ Naturally sweetened with xylitol, which does not promote cavities
- ★ Gluten free
- ★ All-natural tropical punch, grape, and berry flavors

Directions

- ★ Children 4 to 12 years of age, take two chewable tablets per day
- ★ Children 2 to 3 years of age who can safely chew tablets, take one chewable tablet per day

Did You Know?

Kids Need Vitamin D

- ★ Fifty-five percent of children tested in a study reported in the *American Journal of Clinical Nutrition* had low levels of vitamin D. That number increased to 68% during the winter months because of lack of sun exposure and an increase in the amount of time spent indoors. Findings such as these have inspired the American Academy of Pediatrics to double for kids its recommended daily intake of this essential bone-building and immune-supporting nutrient.
- ★ During childhood, vitamin D is essential for development of bones and teeth. Without it, dietary calcium and phosphorous—two key bone-building minerals—can't be properly assimilated. With vitamin D present, calcium and phosphorous absorption is increased by up to 40% and 80%, respectively.

Supplement Facts

Serving Size: 2 Tablets
Servings Per Container: 60

	Amount Per Serving	% DV
Calories	10	
Total Carbohydrate	2 g	<1%**
Sugar Alcohol (as sorbitol and xylitol)	1 g	†

What Kids Eat Today

- ★ On a typical school day, most kids consume 25% of their calories in the form of junk food, according to a recent study.
- ★ French fries are the #1 vegetable source in children's diets.
- ★ Soft-drink consumption among children has more than doubled since the late 1970s. Most 8-year-olds drink soft drinks every single day. They are drinking these soft drinks in place of more nutritious drinks such as milk and juice—in many cases leaving them with a nutrition gap. Studies show that children who drink too much soda get smaller quantities of important nutrients such as calcium, phosphorus, folate, and vitamins A and C.

Per serving of Incredivites™	Approximate micronutrient equivalent in foods†	Benefits
Vitamin A (preformed) (2,500 IU)	1.5 cups of cantaloupe	Promotes the development of healthy skin and body tissues and plays an important role in night vision
Vitamin C (60 mg)	6 ounces of orange juice	Antioxidant properties help protect against free radical damage; also supports immune function and promotes iron absorption
Vitamin D (600 IU)	6 (8 oz.) glasses of milk	Aids in calcium absorption needed for proper bone and tooth development
Vitamin E (30 IU)	10 tablespoons of fortified peanut butter	Antioxidant that helps protect against harmful free radicals
Vitamin K (20 mcg)	2 cups of cooked zucchini	Plays an important role in blood clotting and bone development
Folic Acid (400 mcg)	4 cups of cooked broccoli	Assists in the growth and development of healthy cells
Iron (6 mg)	1.5 cups of cooked spinach	Helps transport oxygen from the blood to body tissues
Magnesium (40 mg)	6.5 cups of cooked Brussels sprouts	Helps maintain normal muscle and nerve function and helps promote strong bones
Zinc (5 mg)	3 cups of cooked kidney beans	Contributes to a healthy immune system
Selenium (35 mcg)	3.5 oz. of beef	Antioxidant that helps protect against harmful free radicals

†Food equivalence may vary depending on a number of factors, such as source and preparation.
